

## 2-pole filters in SMD package

### General application

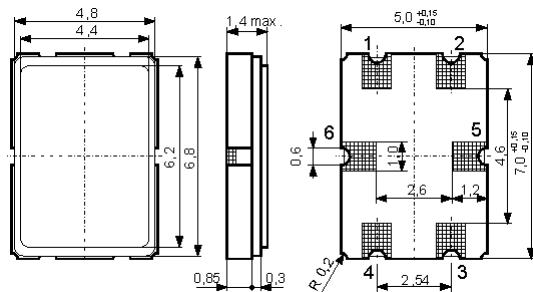

Wireless communication systems, measurement equipment

### Features

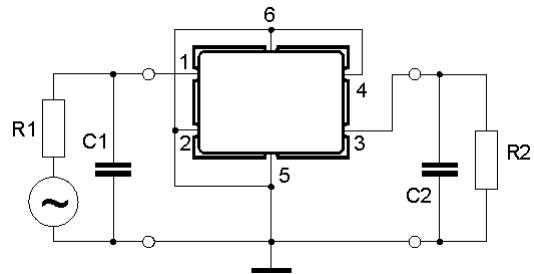

- 2-pole filters in one ceramic package SMD 7x5 mm
- custom specification available
- hermetically sealed by seam welding
- possible to deliver in tapes wound on reels, suitable for automatic assembly
- reflow solderable
- RoHS, Pb-free
- high shock and vibration resistance

### Outline dimensions [mm]

### Wiring diagram

### Examples of custom filter types in ceramic packages

Type	Marking	Fo [MHz]	Poles	Loss [db]	Ripple [db]	Bandwidth [kHz]	Stop band [db] [kHz]	Impedance [Ω // pF]	Case
